MINEX '08 СИБИРЬ

ГОРНО-ГЕОЛОГИЧЕСКИЙ ДЕЛОВОЙ ФОРУМ

MINING & EXPLORATION BUSINESS FORUM

Майнекс '08 СИБИРЬ – ведущая площадка для международного бизнес-диалога и профессионального общения по вопросам развития и реализации геологоразведочных и горных проектов в Сибири.

Minex '08 SIBERIA – a leading platform for an international business and professional dialogue on the future of Mining and Exploration in Siberia.

The 3rd International Mining and Exploration Business Forum MINEX will take place in Moscow.

Nowadays the **Minex** ("Mining & Exploration") is one of the largest and most impressive events devoted to stimulation and implementation of exploration projects, prospects and problems of developing the mineral resources complex of Russia and CIS. At Minex 2006, the idea was born to hold regional forums.

Thus in 2007 the first regional forum called **MINEX SIBERIA 2007** took place in Krasnoyarsk, followed by MINEX NORTHWEST 2007 in Karelia; and the third one, MINEX URAL 2007, was held in Chelyabinsk.

Annually more than **500** executives from more than **400** mining and geological companies, strategic investors, Russian and international banks, consultants and representatives of the state regulation and management bodies from Russia, CIS, Western Europe, Africa, Australia, South and North America participate in the forum. In the framework of the forum, there have been presentations on the issues connected with mining, exploration and investment activity in the mineral resources sector of Russian economy.

Now, the most important international leaders of minerals production and export are Canada, the USA, South America, Africa and Australia. Nevertheless, when discussing the current position of Russia in this sector of the world economy, the participants of the forum concluded that Russia has a unique number of opportunities to take by 2020 the first place among leading producers of mineral raw materials.

The **MINEX SIBERIA 2008** will contribute to achieving this goal.
